

GREYCELLS

The power of focus

INTRODUCTION

Greycells is one of the best IT and network services provider in the industry that caters to the technology needs of small, medium and enterprise businesses. The objective of the company is to provide technology solutions to its clients that help their businesses grow by providing them un-disrupted network services. Greycells aims at providing what is called the Worry Free IT service to our clients which typically implies that our clients will not have to worry about computer downtime or network related issues.

The most important feature of the services provided by Greycells is the maintenance of the information confidentiality and credibility. This has led to the creation of long-term relationships with the clients. The set of comprehensive services by us has led to the support in designing, operation, installation and management of the IT services. The networking designing outsourcing and meeting the requirements of implementation has helped in making the entire process cost effective by reducing the cost levels.

Greycells persistently persistent emphasizes on maintaining excellence and customer satisfaction. This is done so that the potential customers get the best from the investments made by them in the field of technology. The leading vendors in collaboration with Greycells include Cisco, Microsoft, Dell, IBM, Nortel, APC, D-Link, HP, Epson and Watch Guard.

ABOUT US

Greycells was established in 2006 in Dubai with the sole aim of becoming the leading technology solutions provider. The company has significantly progressed over the years and is now recognized as one of the best in the industry. With our 'Power of Focus', we concentrate on converging excellence along with customer contentment.

The idea and philosophy here at Greycells is to help the customers get the most from the investments made by them in the fields of technology and infrastructure development.

This, we do by providing optimal performance with technology solutions. No matter how much the technology develops, the fact of the matter is that businesses need their computers to run smoothly. We ensure that.

We here at Grey Cells Networks strive in making it successful for all the people involved directly as well as indirectly with us. Greycells operates as a team with lead engineers who look into your issues from time to time. There is an undying devotedness to multiply as well as increase the skills, customer business, wealth, name

and fame of the potential customers. In addition to the growth of the clients, we also look at enriching the lives of others who are around us in some or the other way.

OUR VISION

The Greycells Networks is committed to increase the Organizational effectiveness of our clients by providing technology solutions that are least described as best. We aim at providing the optimal settlement for the IT solutions and services very efficiently in a cost operative and operational way to the customers.

The mission here at Greycells is mainly to provide the best customer service and satisfaction to its customers in U.A.E. The main focus here at Greycells is to provide a strong process which can make networking simple and

and convenient for our clients. With the world going online, the need for better technology services is inevitable. Greycells understands this and works diligently at meeting the network and technology needs of its clients.

The main goal of the Grey cells is to foster a long term relationship with the clients by providing affordable services and prompt response to any technology related issues. These services are provided by qualified engineers with a passion towards excellence in a cost effective way which is

the least time consuming. The company is well known in maintaining an upfront as well as open character in all the services and activities.

CORE VALUES

The core values of us here at Greycells are integrity, competence, growth, kindness, service as well as candor. Greycells Networks is mainly focused on dealing with their customers and clients in a fair, transparent and a consistently passionate way. This is mainly due to the integrity and trust in providing excellent services thereby making long term relationships.

The last minute surprises and unfortunate experiences are avoided for the clients, as the moment we realize that the situation is getting out of hand,

people are updated and kept well informed. We go that extra mile in delivering the best and that which is expected much more than promised.

The benchmark maintained by Grey Cells is the best business with zeal to explore new as well as better things. The satisfaction level is maintained keenly with nothing that is less than the best! The threshold level is maintained well and keeps increasing for each and every customer.
